

# Prisha Chowdhury

Los Angeles, CA [prisha4@ucla.edu](mailto:prisha4@ucla.edu) [LinkedIn](#) [GitHub](#)

## Education

### University of California, Los Angeles (UCLA)

Expected Jun 2027

B.S. in Data Theory, Minor in Data Science Engineering, GPA: 3.86

Los Angeles, CA

Coursework: Machine Learning, Statistical Models & Data Mining, Probability, Real Analysis, Mathematical Modeling, Algorithms, Optimization

## Research & Projects

### [Diabetes Prevalence Trend Analysis, Project Lead](#)

Spring 2026 – Present

- Led a 6-person team in collecting, validating, and analyzing WHO data across **200+ countries** and **20 years**, defining data scope and structuring outputs for stakeholder use.
- Built a predictive model with **Test  $R^2 = 0.603$**  and **CV  $R^2 = 0.702$**  to quantify how obesity trends drive diabetes prevalence.
- Produced a live dashboard that translated model outputs into interpretable trend insights for external presentations and decision support.

### [Patient Care Journey Analysis, UCLA DataFest](#)

Spring 2026

- Analyzed **54K+ patient admissions** using Python and SQL to identify treatment burden patterns and access barriers in healthcare data.
- Cleaned and restructured raw records into longitudinal care journeys, making the dataset more usable for trend analysis and non-technical reporting.
- Applied logistic regression and clustering to predict follow-up compliance with **82% accuracy**; presented findings to healthcare administrators and ranked **Top 5 out of 87 teams**.

### [Housing Price Prediction](#)

Winter 2026

- Built a data analysis model for **7,000 properties** using statistical modeling in R and improved  $R^2$  from **0.43 to 0.64**.
- Engineered features across **88+ predictors** and documented findings in a structured technical report to explain key drivers of pricing outcomes.

### [AI Sexism: Gender Bias in AI Job Recruitment, Undergraduate Research](#)

2024

- Conducted competitive intelligence analysis across **3+ hiring pipelines** to identify bias patterns in algorithmic candidate scoring.
- Synthesized results into a formal presentation and written report delivered to **100+ attendees**, translating technical findings into actionable recommendations.

### [NYC Restaurant Health Inspection Analysis](#)

Fall 2024

- Structured and analyzed **292K+ inspection records** to identify recurring violation trends and support data-driven policy recommendations.
- Applied statistical hypothesis testing to confirm a **77.6%** violation recurrence rate and summarize operational risk patterns clearly.

## Leadership

### [National Student Data Corps @ UCLA, Project Lead](#)

Spring 2026 – Present

- Manage sprint planning, peer code review, stakeholder demos, and reproducibility standards for a 6-person cross-functional team.
- Own documentation and presentation of findings to external audiences, strengthening project organization and communication quality.

### [Girls Who Code College Corps, VP & AI Mentor](#)

2023 – 2025

- Identified curriculum gaps through informal market research with students and faculty, then designed and led **15+ workshops** on AI and data analysis.
- Secured **\$1K** in funding and produced written program reports and presentation decks for faculty sponsors and industry partners.

### [Women in CyberSecurity \(WiCyS\), Founder & President](#)

2023 – 2025

- Founded Orange County's first WiCyS chapter and scaled the organization to **50+ members** through targeted outreach and cross-campus coordination.
- Secured **\$2K+** in funding through competitive grant proposals and stakeholder presentations communicating program impact and budget scenarios.

## Technical Skills

**Languages:** Python, SQL, R, Java, C++, JavaScript, WebDev(CSS, HTML)

**Data Analysis:** Statistical Modeling, Trend Analysis, Machine Learning, A/B Testing, Feature Engineering, Market Research

**Visualization & Reporting:** Tableau, Microsoft PowerPoint, Microsoft 365, Canva

**Tools:** Pandas, NumPy, scikit-learn, Jupyter Notebook, Git/GitHub, Docker, MLflow, GCP, AWS

**Strengths:** Data Cleaning, Data Validation, Dashboarding, Technical Reporting, Stakeholder Presentations, Agile

## Awards

Edison International STEM Scholarship — City of Irvine Educational Fund Scholarship — Leadership Recognition Award
